

## OPTIMIZING LOCAL SUPPLIES

## IMPROVING WATER QUALITY

## ENHANCING RELIABILITY

## OUR MISSION

Puente Basin Water Agency is dedicated to achieving a sustainable and reliable local water supply through innovative planning and the development of regionally beneficial projects.

### THE WATER AGENCY WAS FORMED TO:

## OUR ROLE

- » Facilitate collaboration among water managers across the region
- » Integrate plans and solutions that foster a unified, long-term vision for the basin
- » Identify and pursue water supply projects
- » Develop initiatives that support a vibrant community
- » Secure supplemental funding and influence legislation for the region

## STRATEGIC INITIATIVES

Optimize use of local water supplies and reduce the members' reliance on imported water

Improve water quality across the region and enhance water supply reliability

Coordinate regional projects to maximize basin-wide water production and build cooperation and collaboration among stakeholders

Evaluate opportunities to provide surplus water to other purveyors and secure position as regional water management leaders

## PUENTE BASIN WATER AGENCY

## HISTORY

1971: JPA between Rowland Water District and Walnut Valley Water District  
Organized for the protection and utilization of the local, imported and recycled water supply within Puente Basin

**2012:** Regional Water Supply Reliability (RWSR) Program begins delivering water supplies

**2014:** Potable deliveries from La Habra Heights County Water District Pipeline Project begin

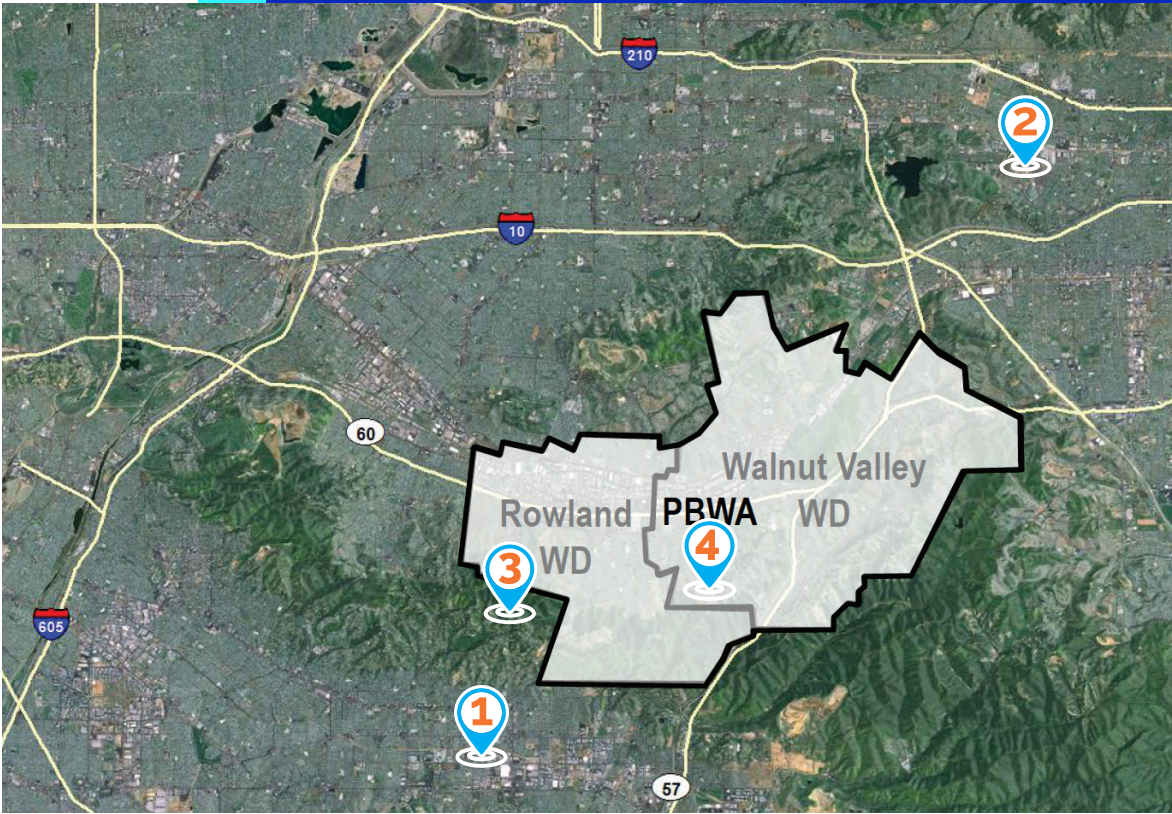

**2016:** Potable deliveries from California Domestic Water Company begin

**2017:** Old Baldy Well rehabilitation complete

**2019:** Planned completion of Durward Well construction
