The following is a supplement to the proposed budget and is intended to provide more specific detail and explanation of the major revenues and expenses proposed in the FY 23-24 Operating Budget.

REVENUES

Administrative Assessments RWD/WVWD

Water Sales - Project RWD/WVWD

Represents payments received from the WVWD and RWD related to the production of water from PBWA water reliability projects. The costs and benefits of these projects is shared equally by the agencies.

Water Sales -TVMWD

Represents payments received from the WVWD and RWD related to water purchased from TVMWD. Unlike the project water sales, the amounts collected from each agency are based on the estimated costs associated with each individual agency's estimated purchases through the Joint Water Line. These costs include both the commodity and fixed charges assessed by TVMWD.

Project Maintenance Reserve

In an effort to ensure sufficient money is available to repair and maintain the LHCWD and CDWC projects, the agencies decided, through separate project agreements, to establish a maintenance reserve account to fund the repair of the facilities. The amounts collected will be reserved for this purpose. For FY 23-24 the budgeted amount is \$5,500, related to expected production from the Cal Domestic project of 1,100 acre-feet. No water production related to other projects has been included in the budget. The maintenance reserve amounts are to be funded equally by the agencies.

Stored/Leased Water

The PBWA, through RWD and WVWD, has over the past several years purchased and stored untreated water in the Main Basin to be used initially by the CDWC project. For the current year budget, it is anticipated that the CDWC project will produce 1,100 AF of water. The average cost of the stored water is \$561.46 per acre-foot, this amount has been included in the budgeted expenses and revenues.

EXPENSES

Source of Supply

Purchased Water - TVMWD - Represents the commodity cost, including TVMWD's surcharge, associated with the purchase of water from TVMWD. Costs are based on purchases of 11,451 acre-feet (RWD 3,608 acre-feet; WVWD 7,843 acre-feet).

PUENTE BASIN WATER AGENCY FY 2023-24 Budget Supplement

Surcharge Orchard Dale - In addition to the costs charged by LHCWD, the District must also pay a per acre-foot surcharge to Orchard Dale Water. No amount has been budgeted for FY 23-24.

Assessments - WRD - Represents the cost of replenishment water related to the LHCWD project. Based on water purchases of 1,100 acre-feet

Fixed Charges
